

#### **Our Client:**

UOP is a wholly owned subsidiary of Honeywell.

It is an international supplier of process technology, products, engineered systems and technical services to the petroleum refining, petrochemical, gas processing and energy industries and is a leader in the research and development of petroleum and petrochemical processing.

Their broad objectives center on the continual development and improvement of petroleum refining, petrochemical, gas production, energy and chemical production technology.

To reinforce their procurement team in Antwerp, we are currently looking for a:

## **Senior Procurement Specialist**

### **Antwerp**

#### **Job description:**

- You are responsible for the project related purchasing for a wide portfolio eg piping, steel constructions, vessels, valves, modular constructions, instrumentation, services,... for all the international projects managed by the office in Antwerp.  
(Total Spend: +/- 50 mio €.)
- You will work in project teams together with the project manager and engineering where you will represent the procurement department.
- You will identify the lowest TCO by taking into account costs, lead time reductions, delivery, flexibility, quality ...) and strive for continuous improvement.
- You will manage your project portfolio and optimize the purchasing process in close collaboration with the internal customers such as engineering, finance, project management, warehousing etc.
- You initiate and manage cost saving projects considering costs, value creation and risk management and bring the projects to completion within the given project schedules.
- You have an up to date market knowledge and will search for new opportunities with a focus on maximum cost efficiency.
- You will share information with other procurement groups worldwide and report directly to the purchasing manager.

#### **Competences:**

- You preferably have a degree in Industrial, civil or commercial Engineering or equal through relevant experience.
- You have a proven track record within a technical procurement function.
- You are fluent in Dutch and English. Other languages such as German and French are an advantage.

- Experience with SAP is a plus.
- A green belt certification is a plus.
- You are flexible , structured, stress resistant and efficient.
- You are result oriented, pro- active, ethical and commercial.
- You are willing to travel +/- 10 % of your time.

**Conditions:**

UOP offers you a position in a challenging, dynamic and growing environment. Besides this challenging opportunity they offer an interesting salary package.

**The position is based in:**

Antwerp
